

May 20, 1929.

Mr. Henry Ruggeri,
Price, Utah.

Dear Sir:

RE: SPRING CANYON DIST.

It is approaching the time of year when I expect the controversy between Mrs. DeMarco and the Elegantis to break out and I am writing to learn if you still represent the latter. Rumor has come to me that Mrs. DeMarco has already engaged counsel for the purpose of litigation but I still feel that this situation could be ironed out to the satisfaction of both users if they were willing to quit fighting.

If you will refer to my letter to you dated Sept. 18, 1928, you will find my analysis of the rights as I understand them and the suggestion of how, by installing a pipeline, the distribution could be simply effected.

I would appreciate hearing from you as to the present situation and whether you and your clients are willing to cooperate in what I believe would be a final solution of the difficulty.

Yours very truly,

State Engineer.
